

GETTING FIVE OPINIONS shouldn't take five weeks.

*At Lahey, specialists work side-by-side, under one roof.*

When you come to Lahey, you get treated by a team of doctors.

Top specialists in their fields working together, under the same roof.

They don't have to introduce themselves to each other. Or explain your case

for the umpteenth time to a complete stranger. Because they know each other.

The chief beneficiary of this streamlined, team approach is always you. And your health.

No wonder Lahey is recognized year

after year in *U.S. News & World Report's* "America's Best Hospitals" issue.

The most amazing thing about Lahey: anyone can come to our hospital. You don't need to be someone special. You just have to want to be treated right.

For more information, please call 1-800-LAHEY-55 or visit [www.lahey.org](http://www.lahey.org)
