

2009 Daisy Award for
Nursing Recipient

This year we will be running the 2010 Boston Marathon in memory of Diane Geehan, a 22-year colleague and PACU nurse who ran her fifth Boston Marathon only a few months before being diagnosed with lung cancer. As members of **Team Lahey for Diane** we take on her fight to continue the battle against lung cancer and help find a cure for others.

"I will always remember the care, the compassion, and the gentle touch that everyone has given me. As I take this journey I carry your spirit with me. Remember, it's not a job-- it is your mission to care. You made me a better person and I love you all!" - Di

Team Members:
