

# Lahey Hospital & Medical Center

Lahey Hospital & Medical Center (LHMC), located in Burlington, Massachusetts 20 miles northwest of Boston, is the second largest academic medical center in the Beth Israel Lahey Health (BILH) health care system. BILH brings together academic medical centers and teaching hospitals, community and specialty hospitals, in a shared mission to expand access to great care and advance the science and practice of medicine through groundbreaking research and education.

LHMC serves more than 3,000 patients per day through our 335-inpatient hospital beds, our ambulatory care center, 24-hour emergency department and American College of Surgeons verified Level I trauma center. We are a teaching hospital for Tufts University School of Medicine with residency and fellowship programs for more than 130 new physicians in multiple subspecialties. As a research center, LHMC is involved in more than 200 clinical trial protocols.

The LHMC Pharmacy Department is committed to providing the highest quality of care and service to our patients, along with support and education for all members of our health care team. The Department has affiliations with MCPHS University and Northeastern University Schools of Pharmacy.

## Beth Israel Lahey Health Diversity, Equity and Inclusion

Our vision is to transform care delivery by dismantling barriers to equitable health outcomes and become the premier health system to attract, retain and develop diverse talent.

Primary goals are to have a workforce that mirrors the increasing diversity in the communities that BILH serves, to eradicate disparities in health outcomes within our diverse population of patients, and to expand investments in underrepresented communities to close socio-economic disparities that impact population health.
